

## 4. Quepos

Quepos city is one of the most impressive tropical cities in Costa Rica due to the high and rigorous protection of its flora and fauna. This makes this city an attractive tourist destination full of autochthonous vegetation and extraordinary animal species that are currently endangered. The main economic activities in Quepos are the abundant tourism of the city and the artisanal fishing in its harbor, which is the second most important harbor of the Costa Rican zone after the Puntarenas harbor.
